			Valor

- The significance of Langerhans cells in cholesteatoma
B. Åberg, G. Heyden, M. Jontell, S. Edström and A. Tjellström 1
- Subperiosteal abscess complicating chronic otitis media
S.M. Ahmadizadeh 3
- Otomycosis in Karachi
M.H.A. Beg and A.T. Bukhari 5
- Nonspecific necrotizing petrositis in children
A.C. Stam and J.A. Pinto 7
- Autoradiographic studies of mineral transport from regions of bone resorption in experimental cholesteatoma
R.A. Chole and S.P. Tinling 9
- Sensorineural hearing loss in chronic otitis media patients treated topically with ear drops
M. Fradis, J. Ben-David, L. Podoshin and B. Bashara 11
- Results of treatment of otosclerosis with platinum teflon piston and partial stapedectomy
T. Brask 13
- J. Bernard Causse technique for otosclerosis surgery
J.B. Causse and J.R. Causse 16
- Changes in bone conduction threshold during stapedectomy
V. Colletti and V. Ricci 18
- Altered bone remodelling in otosclerosis
O. Ribári and I. Sziklai 21
- Paracausis Willisii, tale or true?
J. Suonpää, E. Pekkarinen and A. Salmivalli 23
- Otosclerosis - Association with HLA BW 35
J.M. Tato, E.J. Haas, E.H. Raimondi and L. Verruno 25
- Interest of the tomographic study of the vestibular aqueduct
J.M. Bertran and M. Trujillo 27
- Modification of the uvulopalatoplasty operation resulting in decreased incidence of velopharyngeal incompetence and postop recurrence of obstructive sleep apnea syndrome
H.L. Baker 29
- Vestibular neurectomy for Meniere's disease. Middle fossa or retrolabyrinthine approach?
J. Gavilan, C. Gavilan and M.D. Tomas 31
- Retrolabyrinthine vestibular neurectomy with simultaneous monitoring of eighth nerve and brain stem auditory evoked potentials
H. Silverstein, A.B. McDaniel, J. Wazen and H. Norrell 33
- Results of vestibular nerve section and neurolysis of the eighth cranial nerve in Meniere's disease
T. Haid, M.E. Wigand and M. Berg 35

- Pupillary dynamics in patients with Meniere's disease
H. Inoue, T. Uemura and T. Matsunaga 38
- Intratympanic treatment with gentamicin for Meniere's disease
G. Lange 39
- An epidemiological study of Meniere's disease in Toyama prefecture
K. Mizukoshi, Y. Watanabe, N. Ohashi, H. Kobayashi and H. Shojaku 41
- Gentamycin-treated Meniere's disease evaluated by rotatory tests
L. Ödkvist, C. Möller, J. Thell, B. Larsby and D. Hydén 43
- Hyperinsulinism associated with migraine and Meniere's disease
F.W. Pullen II, R. Low, L. Pearce and T. Troost 45
- The use of histamine in the management of Meniere's disease
J. Said and Aguayo 47
- Distended membranous labyrinth in cases of congenital anomalies
H. Saito and M. Furuta 49
- Medical care and treatment for Meniere's disease: Method to evaluate their efficacy
K. Tokumasu, A. Salto and S. Yoneda 51
- Portable cranio-carpography – A new screening method for vertigo
S.S. Bhutada 53
- Non-neoplastic supraglottic laryngeal stricture of adult onset
M.L. Schwartz and H.T. Cho 56
- Laryngotracheoplasty with long-term stenting in the treatment of laryngotracheal stenosis
Shiann Yann Lee 59
- Glottographic measurement of the effects of laryngeal paralysis: A preliminary report
R.R. Karin, D.G. Hanson, B.R. Gerratt, P.H. Ward and S.M.J. Hunt 61
- Silicone injection for the unilateral paralysis of the vocal cord
S. Kitahara 63
- A new classification of upper airway stenosis
H. Laccourreye, J. Lacau St Guily, D. Brasnu, F. Chabolle and A. Fabre 65
- Non-steroidal anti-inflammatory drugs in otitis media with effusion
S.M. Abramovich, J. O'Grady, A. Fuller, R. Lavelle and M. MacKinnon 68
- Electrocochleography and brain stem potentials in herpes zoster (Ramsay-Hunt syndrome)
S.J. Abramovich and D.K. Prasher 70
- Anatomical factors that affect the congenital cholesteatoma of a fetus temporal bone
K. Aimi 72
- Psychological aspects of labyrinthine patients
A.M. Baccari Kuhn 74
- Autograft and homograft TORP and PORP in the restoration of the middle ear
C. Betow 76

- Otitis media with effusion, diagnostic and therapeutic elements
W. Betow 78
- Reversible unilateral sudden hearing loss in acquired latent syphilis
M. Harell and M. Englender 80
- Technique for evaluating the installation and acute cochlear injury from electrode insertion in human temporal bone preparations
P.A. Burgio 82
- Office management of malignant otitis externa
I. Harris 85
- Possible utility of 40 Hz event related potential in electric response audiometry
M. Aoyagi, M. Yokota and J. Harada 87
- Synaptic alterations in the acoustic cortex of the rat following insulin hypoglycemia
S.J. Baloyannis, T.C. Theoharides and L.S. Manolides 89
- First dialysis' bedside recording of brainstem auditory evoked responses (BAERs)
A. Battistella, B. di Paolo, T. di Marco, G. del Rosso and M. Evangelista 91
- Clinical and experimental studies in secretory otitis media
J.A. Khan 93
- Hearing evaluation with the combination of transtympanic electrocochleography and brain stem responses audiometry
P.L. Coser and M.J.S. Coser 99
- Changes of stapedius reflex parameters during controlled stimulation
S. Sciuto, P. Gracili and M. Poerio 101
- The acoustic function of the tragus
M. Honda, S. Tsukahara, I. Ohtani and J. Ouchi 103
- Simultaneous multifrequency tympanometry using Fourier transforms of broadband noise
V.D. Larson, D.M. Schwartz and J.D. Harmon 105
- Auditory brainstem response recovery functions in multiple sclerosis
J.F. Leffingwell and S.J. Kramer 107
- High-frequency audiometry in clinical practice
I.W.S. Mair and E. Laukli 109
- Clinical application of summing potentials in the diagnosis of inner ear diseases
T. Ohashi, N. Yoshie and K. Shimada 111
- Dust produced deafness - An entity in the industrial complex in comparison to noise induced deafness
S.S. Bhutada 113
- Prevention of sensorineural deafness
D. Dimov and T. Shirov 116
- The understanding of running speech without lipreading by multi-channel cochlear prosthesis patients
T.J. Redhead, R.C. Dowell, G.M. Clark, A.M. Brown, B.C. Pyman and R.L. Webb 120
- Differential diagnosis of sensory-neural hearing loss
L.H. Hiranandani 122

- Topographic recording of auditory brainstem response
K. Shimada, T. Ohashi and N. Yoshie 124
- Relationship between auditory brainstem response abnormalities and pure-tone audiometry
T. Yagi, S. Baba, Y. Kobayashi and H. Aoki 126
- Presence of immunoglobulins (IgA, IgG) and secretory component in the human endolymphatic sac
W.J. Arnold and H.J. Altermatt 128
- Assessment of the vestibular function in experimental animals by the recording of short latency vestibular evoked response
J. Elidan, J. Lin and V. Honrubia 130
- Individual projections of the semicircular canal cristae in the vestibular nuclei of the frog
V. Honrubia, A. Kuruvilla, C. Suarez and S. Sitko 132
- The effect of aspirin on the concentrations of prostaglandins in the perilymph
T.T.K. Jung, S.K. Juhn, T. Morizono, J. Edlin and D. Hwang 34
- Staphylococci in acute otitis media
P. Karma, T. Virtanen, P. Gronroos and E. Herva 136
- Histopathologic study of polyvalent pseudomonas vaccine on experimental pseudomonas otitis media
Chond Sun Kim, Kyung Kyun Oh and Man Kee Paik 138
- Mast cell degranulation may cause neuronal degeneration
T.C. Theoharides, S.J. Baloyannis and L.S. Manolides 140
- Paget's disease of the temporal bone
G. Morello-Castro 142
- The fibrinolytic enzyme in carrageenin-induced otitis media of guinea pig
H. Nakayoshi, Y. Noda, M. Nakamura and T. Kosugu 150
- Experimental studies on the amplitude modulated electrical stimulation of the ear in cats
Kwan Taek Noh, Soon Jae Hwang, Sun O Chang and Duk Hwan Lim 153
- Some considerations on the pathophysiology of Meniere's disease -
 On the relations between the clinical experiences and the results of the experimental endolymphatic hydrops
M. Nozue, H. Mineta, Y. Serizawa, K. Fujikawa, Y. Mori and T. Kikawada 155
- A study using the ABR test in guinea pigs with inner ear membrane lymphatic hydrops
Wang Qi and K.J. Lee 157
- The effect of labyrinthectomy on the structure of the endolymphatic sac
H. Rask-Andersen and U. Friberg 159
- A microanalysis study on human auditory ossicles
J.M. Sánchez-Fernández, J.M. Rivera and J.A. Zubillaga 161
- The morphology of the normal ossicles
L.Z. Szabo 163
- Scanning electron microscopy of cochlear blood vessels
T. Tono, T. Nagai and T. Morimitsu 165
- The effect of hemodilution by dextran on the cochlear blood flow
E. Hultcrantz, A.F. Nuttall, F. Scheibe and J.M. Miller 167

- Effect of vanadate on cochlea and its distribution
T. Nakano, T. Morimitsu and M. Ide 169
- On the use of homograft treating ozena
C. Betow 171
- Epistaxis: Association of methods in posterior tamponement
S. Castagno, R.L. Castagno and L.A. Castagno 173
- Valve phenomenon in nasal obstruction
G. Corvera, J. Corvera and C.S. Castillo 175
- Electron microscopic study of scleroma in India
S. Desasouza and A.R. Chitale 177
- Microsurgical treatment for posterior epistaxis
V. Diamante, I. Lazaro, L. Barbon and G. Haedo 179
- New concepts in scleroma management
M.E. El Mallah, A.A. Haroon, S.H. El-Tayeb and R.Y. Khalil 181
- An environmental study in rhinoscleroma
D.K. Gosavi, V. Gosavi and A.G. Bhavthankar 183
- Ceramics in reconstructive surgery of the anterior skull base and the facial bones
K. Jahnke 185
- Intranasal surgery with the carbon dioxide laser
R.A. Kirschner, B.C. McDonnell and R.F. Giuliano 187
- A morphologic and immunohistochemical study on the effect of parasympathetic fiber neurectomy on nasal mucosa
V. Diamante, L. Barbon, C. Falasca, I. Lazaro, E. Mareso and S. Montes 189
- Nasal cryotherapy with carbon dioxide
E.A. Lourenço and C.I. Ribeiro de Almeida 191
- Cryosurgery: A new therapy for rhinoscleroma
A. Maher, S. Zaki and S.M. Hammam 193
- Osteoplastic widening of the nasal passages
S.S. Parulekar 195
- Rhinoscleroma: Contribution to its treatment
F. Salaverry and H. Diaz 197
- Osteolytic sinusitis and pneumomediastinum: Deceptive otolaryngologic complications of cocaine abuse
V.G. Schweitzer 200
- Epidemiologic, clinical and histological study of rhinoscleroma
S. Suarez Gutierrez 204
- Treatment of allergic and vasomotor rhinitis by bilateral partial inferior turbinectomy
K.B. Bhargava, G.N. Shirali, U.S. Abhyankar and K.C. Gadre 206
- A double-blind, comparative efficacy and safety study of tazifylline, clemastine and placebo in patients with seasonal allergic rhinitis; A two-centre study
E. Holopainen, B. Grahne, H. Malmberg, Y. Allas, M. Sorri and P. Sipilä 208
- Effect of in vivo treatment with gammaglobulin-histamine in sensitized guinea pigs
M. Irifune, T. Harada, S. Ogino, I. Okawachi and T. Matsunaga 210

- A study of allergens in nasobronchial allergy
S.N. Jain 212
- Dynamics of mast cells in human allergic nasal epithelial layer after provocation with allergen
S. Kawabori, M. Okuda and T. Unno 214
- Survey of airborne allergic pollens in North China
Li Wu-kung and Wang Chang-sheng 216
- Comparative study of standard X-ray, sinuscopy and B-mode echography in the diagnosis of the maxillary sinusitis (about 270 sinuses)
B. Bertrand and J.P. Trigaux 219
- Experimental acute pneumococcal sinusitis in rabbits - A new way for research in sinusitis
B. Drettner, P. Johansson, J. Kumlien and H. Schiratzki 222
- Sinusitis in a group of organ transplant recipients
S.D. Harris, G.E. Peters and S.K. Copeland 224
- Intranasal microsurgery of all paranasal sinuses, the septum and lacrimal sac in hypotension - 25 years experience
J. Heermann 226
- Modified intranasal antrostomy
K.K. Sharan 228
- Aspects of pronase treatment on chronic sinusitis - III Penetration into sinus tissue of orally administered pronase
M. Ishida, H. Uda, S. Fujisaki, K. Saito and T. Nakamura 231
- Radically operated sinusitis of the sphenoidal sinus
O. Palmgren and B. Grahne 233
- Modified and codified sonotubometry
B. Friberg, I. Melén and L. Olén 235
- Topical use of tobramycin, gentamicin, neomycin + polymyxin B, dexamethasone and lidocaine in the treatment of otitis
M.M. Gananca and P.L.M. Albernaz 237
- Cochleo-vestibular findings in the familial lateral amyotrophic sclerosis (Van Laere's disease)
C.C.T. Atherino, J.P. Mattos and T. Atherino 239
- Reconstructive of the middle-ear with hydroxyapatite implants
J.J. Grote 241
- Cholesteatoma in chronic suppurative otitis media with central perforation
M.N. Jamal 243
- Recurrent cholesteatoma of the infratemporal fossa
R.T. Yuko and D. Blakeslee 245
- Bacteriology of cholesteatoma
M.J. Levenson, S.C. Parisier and W. Zelman 248
- Clinical results with bone-anchored hearing aids
G. Lidén, A. Tjellström and N. Berlinger 250
- Staging of cholesteatoma
Chiang-Feng Lien 252
- A comparative study of pressure equalizing tubes
E. Madiedo Jr 254

- T-tube for long-term middle ear ventilation
L.H. Nielsen and G. Hessel-Andersen 256
- Deep neck abscess of otogenic origin: Bezold's abscess revisited
E. Smouha, V.K. Anand, M.J. Levenson, M.D.F. Deck and S.C. Parisier 258
- Cholesteatoma - An epidemiological study among members of kibbutzim in northern Israel
L. Podoshin, M. Fradis, Y. Ben-David, A. Margalit, A. Tamir and L. Epstein 260
- Ear disease in the Australian aborigine
A.B.N. Rao 262
- Athanikar's hypothetical modification of facial nerve decompression based on reticulometry
K.A. Athanikar 264
- Cranial nerve alterations during Bell's palsy
R.F. Bento, A. Miniti and A.J. Tedesco-Marchese 266
- Facial nerve tumors
O. Gomes de Souza 268
- Clinical evidence of CNS involvement in Bell's palsy
P. Hanner, O. Andersen, L. Frisen, U. Rosenhall and S. Edström 270
- Surgical anatomy of the facial nerve. Identification techniques for avoiding its lesion
M.A. Lacour, G. Baldisserotto and V. Thompson 271
- Sub mandibular salivary gland scan: A prognostic indicator of Bell's palsy. A preliminary report
G. Rosen, I.Y. Vered, I. Garty 274
- The facial motor nucleus somatotopy is restored after facial nerve regeneration in neonatal but not adult rats
L. Thomander and H. Aldskogius 277
- Response pattern recognition in facial evoked electromyography (electroneurography)
G.B. Hughes, R.H. Nodar and M.A. Hamid 279
- Experiences in motion sickness prevention
G. Bodó 281
- Clinical evaluation of the inferior vestibular nerve function
H.H. Caovilla, M.M. Gananca and P.L.M. Albernaz 283
- Can the chair test determine the side of vestibular dysfunction?
M.A. Hamid, G.B. Hughes and M.O'Keefe 285
- Investigation into the precision of Barany's theory of caloric labyrinthine reaction
H.J. Scholtz and U. Sievert 287
- Non-vestibular contamination of rotatory testing for vestibular diagnosis
D. Hydén, B. Larsby and L. Ödkvist 289
- The fast phase eye-speed of post caloric nystagmus in normals: A vector-nystagmographic study
Y.I. Ito, M.M. Gananca and P.L.M. Albernaz 291
- Effects of visual target on body sway
M. Kikukawa, Y. Miyashita and K. Taguchi 293

- Quantitative measurement of visual vestibulo-ocular interaction using sinusoidal rotation in patients with vertigo
H. Kobayashi, K. Mizukoshi, Y. Watanabe and N. Ohashi 295
- Change in vestibular-oculomotor function due to transdermally applied scopolamine
B. Larsby, J. Thell, D. Hydén and L. Ödkvist 297
- Optokinetic nystagmus in patients with cerebral lesions
M. Yanagida, T. Tokita, K. Amano and K. Mizuta 299
- Haemostatic study in patients with vertigo and the effect of antiplatelet drug
Y. Noda, M. Ura, M. Nakamura and T. Kosugi 301
- Quantification of smooth pursuit patterns (between smooth, saccadic and ataxic patterns)
N. Ohashi, Y. Watanabe, H. Kobayashi and K. Mizukoshi 304
- Diazepam in the treatment and prevention of motion sickness
J.H. Ryu and R.I. Kohut 306
- Positional vertigo - Treatment with ephedrine nasal douche
K.U. Shah 309
- Clinical significance of change in angulation of shoulders while stepping
K. Taguchi, K. Wada and M. Kikukawa 312
- Immunohistochemical study of cochlear cells using monoclonal keratin antibody AE1
Shan-Rong Shi and S.K. Juhn 314
- Studies of the development of the otic capsule in rats
K. Shimada 317
- Surgical anatomy of the guinea pig middle ear
D.S. Thakor and T.W. Frank 320
- Propranolol's effect on auditory-nerve responses is due to its local anesthetic properties
R.P. Wikholm and M.L. Wiederhold 322
- Motility of isolated mammalian outer hair cells
H.P. Zenner 324
- Growth of frontal sinus with age - An X-ray tomographic study
Y. Arashi, T. Mabuchi and M. Tsutsumi 326
- The ultrastructure of the human antral mucosa in chronic sinusitis. A freeze-fracture study
R. Aust, A. Köling and H. Rask-Andersen 328
- The safety of frontal sinus fat obliteration when sinus walls are missing
P.J. Donald and M. Ettin 330
- Aspects of protease treatment of chronic inflammation. II. Role and fate of administered protease
S. Fujisako, T. Nakamura, S. Kurokawa, M. Mitani, J. Yoshida and M. Nakamura 332
- Clinical significance of EOG (Electro-olfactogram) for the objective olfactory examination
M. Kamide, M. Furukawa and R. Umeda 334
- Amidolytic and fibrinolytic activity of tissue plasminogen activator from paranasal mucous membrane in chronic sinusitis
T. Kosugi, M. Ura and Y. Noda 336

- Electronmicroscopic histochemistry of the serous secretory granules in the human nasal and salivary glands
M. Machino, M. Tachibana, M. Hirayama, H. Hama and O. Mizukoshi 339
- Preliminary observations on mediators in rhinovirus-induced colds
Kagey-Sobotka, D. Bartenfelder, P. Beasley, L. Lichtenstein and D. Proud 341
- Quantitative analysis of sialic acid and L-fucose in patients with chronic sinusitis or nasal allergy
K. Ogawa, K. Itoh, A. Uchizoni and M. Ohyama 343
- Comparative histochemical study of glycoconjugates of nasal and paranasal mucosa in mammalian
K. Tanaka, K. Fukami and M. Ohyama 345
- Immunohistochemical and biochemical study of complement in nasal and paranasal diseases
A. Uchizono, Y. Hanamure, S. Furuta and M. Ohyama 347
- Absorbance spectrophotometric analysis for the mucous membrane in nasal and paranasal sinus diseases
H. Yano, S. Furuta, S. Yashikawa and M. Ohyama 349
- Morphological bases of echolocation in the bat: *Rhinolophus ferrumequinum*
J. Slocker, L. Cabezudo, J. Antoli-Candela and F. Antoli-Candela 351
- Comparative analysis of tissue alterations found in the tonsil beds of dogs operated through conventional surgery or using CO2 laser
M. Elisabetsky, L.C. Da Costa Gayotto, J.B. Ferreira and E.P. Neto 355
- A new technique for total septal reconstruction in children
S.B. Jugo and I.F. Padovan 357
- Correction of nasal septal perforation through external rhinoplasty approach
W.H. Abousheleb and H.M. Moustafa 359
- Predicting success of surgical treatment in obstructive sleep apnea
V.K. Anand, M. Kramer and L. Schoen 361
- Surgical management of ear lobe keloids secondary to ear piercing using a newer compression device
H.L. Baker and R. Baugh 363
- Facial reconstruction with implants of porous polyethylene
A. Berghaus 365
- Serial excision in management of facial scars and keloids
H.N. Bhatnagar 3367
- Parotid gland surgery: A twenty-five year experience at Baylor College of Medicine
B.R. Alford, C.D. Katz and J.H. Atkins Jr 370
- The role of radiotherapy in treatment of malignant tumors of the trachea
M.E. Baraka 372
- Surgical salvage after high-dose irradiation failure in patients with head and neck cancer
G.A. Carl, J.A. Duncavage, R.J. Toohill and T.W. Grossman 374
- Parallel histologic margins for head and neck cancer
T.M. Davidson, P. Haghighi and R.W. Astarita 376
- Cervical metastasis from the urinary bladder: A rare diagnosis
D. Edelstein, W. Lawson and M. Tannenbaum 379
