

SUBJECT INDEX

- ABLB
see alternating binaural loudness balance
- ABR
see also sensory evoked response
 acoustic neurinoma vs other tests, 174
 basic auditory test, 180
 Bells palsy, 101
 child, hearing loss, 289
 congenital rubella, 302
 electrocochleography combination, 173
 multiple sclerosis, 167
- acetazolamide
 Meniere disease, 324, 328
- acetyl D-leucine
 Meniere disease, 327
- acetylsalicylic acid
 intolerance, rhinitis, 221
- acoustic impedance, 161
- acoustic nerve lesion
 acoustic reflex amplitude, 163
- acoustic neurinoma
 ABR vs impedance audiometry, 174
 ABR vs psychoacoustic measurement, 174
 electrocochleography, 170
 electronystagmography, 177
 magnetic resonance imaging, 261
 perilymph protein, 137
 sound localization, 175
 speech discrimination, 175
- acoustic reflex, 161
 commercial systems, 163
 loudness discomfort, 162
 newborn, 164
 psycho-acoustic measure, 161
 temporal characteristics, 163
- acoustic trauma
see noise trauma
- acute laryngitis
 hoarseness, 488
- acute otitis media
 disease duration, 285
 epidemiology, 283
 secretory otitis, 275
- acute sinusitis
 child, 693
 surgical therapy, 696
- acyclovir
 sudden deafness, 712
- adaptation
 vestibular loss, 129
- adenoid
 radiodiagnosis, 582
- adenoidectomy
 secretory otitis, 267, 268
- adiposity
see obesity
- adjuvant chemotherapy
 head and neck cancer, 522, 614
- adoptive therapy
 malignancy, 600
- aerodynamics
 voice disorder evaluation, 478
- age
 acute otitis media, 284
 Bells palsy, 87, 88
 deafness, 74
 Meniere disease, 43
 nasopharyngeal cancer, 150
 paranasal cancer, 224
 residual cholesteatoma, 29
 sensorineural hearing loss, 425
 snoring, 199
 subglottic hemangioma, 589
- air flow measurement
 voice disorder evaluation, 478
- air ingestion
 esophageal speech, 407
- allergic rhinitis
see also respiratory allergy
 anti-allergic drugs, 217, 546
 basophilic cell, 217
 beclomethasone dipropionate, 217
 challenge test, 206
 child, diagnosis, 220
 chlorpheniramine, 217
 disodium cromoglicate, 217, 223
 eyelashes length, 222
 food allergy, 221, 222, 531
 HLA phenotype, 206
 immunotherapy, 543
 laser therapy, 679
 RAST, 534
- allergy
 respiratory tract *see respiratory allergy*
 serial dilution antigen endpoint titration, 529
- alternating binaural loudness balance
 acoustic neurinoma, 176
- aminoglycosides
 sensorineural hearing loss, 428
 tinnitus, 442
- anamnesis
 food allergy, 532
 sudden deafness, 701
- anaphylatoxins
 allergenic endolymphatic hydrops, 320

- anesthesia
 foreign body, bronchus, 588
 annoyance
 tinnitus loudness, 447, 448
 anti-allergic agents
 allergic rhinitis, 217
 anticonvulsant agent
 tinnitus, 469
 antihistamines
 histamine receptor, mucopoly-
 saccharide, 548
 alpha 1-antitrypsin
 chronic sinusitis, 687
 anxiety
 Menier disease, 327
 tinnitus, 464
 aphasia
 speech training, 13
 arachidonic acid metabolite
 chronic sinusitis, 687
 argon laser
 ear surgery, 670
 stapedotomy, otosclerosis, 366
 arterial oxygen saturation
 post-uvulopalatopharyngoplasty, 197
 artist
 acoustic analysis, 479
 vocal nodule/polyp, 481
 voice disorder, 399
 arytenoid
 glottis cancer, 385
 aspiration
 pull out prosthesis, laryngectomy,
 412
 tracheo-esophageal fistula, 414
 tracheo-hypopharyngeal fistula, 395
 astemizole
 nose secretion, 212
 ataxia
 fixed unilateral vestibular loss,
 128
 atelectasis
 secretory otitis complication, 280
 atopic disease
 vs immunodeficiency, 214
 rhinitis RAST screening, 535
 atticostomy
 cholesteatoma, 30, 31
 atticotomy
 residual cholesteatoma, 28
 audiometry
 cochlear endolymphatic hydrops, 323
 otosclerosis, 351
 sudden deafness, 708
 tinnitus, 441
 vertigo differential diagnosis, 125
 auditory brainstem response
 see ABR
 auditory tests, 174, 178
 adults, 178
 augmentation rhinoplasty, 654
 complications, 655
 autoimmunity
 Meniere disease, 136, 312
 otosclerosis, 351
 aversiveness
 tinnitus, 440
 B-cell deficiency
 immunopathology, 215
 B-lymphocyte
 mucoid vs serous middle ear
 effusion, 276
 bacterial antibody
 middle ear effusion, 276
 bacterial infection
 middle ear effusion immunoglobulins,
 271
 open vs closed tympanoplasty, 244
 secretory otitis, 275
 bacteriostatic activity
 middle ear effusion, 272
 basophilic cell
 allergic rhinitis, 217
 histamine release, rhinitis therapy,
 218
 BCG vaccine
 head and neck cancer, 517
 nonspecific immunotherapy, 599
 beclomethasone dipropionate
 allergic rhinitis, 217
 Bells palsy
 brain stem damage, 101
 corticosteroid vs surgery, 92
 diabetes mellitus, 87, 95
 facial nerve anatomy, 98
 facial nerve pathology, 100
 natural history, 86
 pathogenesis, 82, 102
 symptomatology, 87, 95, 101
 transmastoid decompression, 90
 virus infection, 83
 benign tumor
 CO₂ laser, 661
 trachea, YAG laser, 672
 benzodiazepines
 Meniere disease, 327
 betahistine
 Meniere disease, 136, 328
 tinnitus, 469
 betel nut chewing
 mouth cancer, 522
 biofeedback
 matching-to-sample, tinnitus, 453
 tinnitus, 453
 bleomycin
 head and neck cancer, 515
 blink reflex test

- Bells palsy, 101
- Blom-Singer prosthesis, 481
problems, 420
- blood perilymph barrier
vestibular labyrinth, 135
- bone conduction
fluoride therapy, otosclerosis, 34
- bouginage
airway stenosis, 559
- BR test
see blink reflex test
- brain atherosclerosis
see cerebrovascular disease
- brain stem damage
Bells palsy, 87, 95, 101
- brainstem electric evoked response
child vs free field audiometry, 183
- branchiomela catarrhalis
secretory otitis, 275
- bronchial asthma
sinusitis *see sinu-bronchitis*
- bronchoscopy
child, indications, 576, 577
flexible, fiberoptic, 578
open tube *see tube bronchoscopy*
scope size, 587
- Caldwell-Luc technique
maxillary polyp, 697
- caloric test
vs CT scan, 47
vertigo, 126
- Canada
ORL specialist certification, 17
- cancer
see malignancy
- capillary permeability
stria vascularis, endolymphatic
hydrops, 318
- carbamazepine
tinnitus, 469
- carbon dioxide
see CO₂
- cartilage
'memory' reconstructive surgery, 650
nose reconstruction, 647
- cassava food
cyanide, hearing loss, 296
- Central America
otosclerosis surgery, 360
- ceramics
implantable prosthesis, 638
- cerebrospinal fluid
myeline basic protein, Bells palsy,
101
- cerebrospinal fluid leakage
craniofacial surgery complication,
509
- cerebrovascular disease
Meniere disease, 311
certification
ORL specialists, 15
- challenge test
nose allergy, 206
rhinomanometry, 207
- child
ABR, hearing loss detection, 289
acute otitis media, 283
allergic rhinitis, 220
augmentation rhinoplasty, 654
brainstem electric evoked response,
183
bronchoscopy indications, 576, 577
cholesteatoma, surgery, 228, 232
cochlea prosthesis, 60
endoscopy, 578, 582
fiberoptic endoscopy, 578
hearing impairment prevention, 293
hearing impairment, speech training,
13
hearing loss detection, ABR, 289
immunodeficiency, 213, 539
laryngo-tracheal stenosis, 563
middle latency response, hearing
loss, 289
nose septum reconstruction, 627
open tube bronchoscopy, 575
sinusitis, 693
slow vertex response audiometry, 181
tympanometry, 164
- chlorpheniramine
allergic rhinitis, 217
- chlorthalidone
episodic vertigo, 131
- cholesteatoma
attic type, 155
atticoantrostomy, 30, 31
canal-up vs canal-down surgery, 238
child, surgery, 228, 232
chronic otitis media, 236
congenital, 232
CT scan, 21
epidemiology, 236
mastoid pneumatization, 236
middle ear implant, 40, 41, 42
open vs closed type surgery, 242
opposite ear hearing, 250
pars flaccida vs pars tensa type,
154, 155
pathogenesis, 153, 154, 227
primary vs secondary, 248, 249
residual *see residual cholesteatoma*
secretory otitis complication, 281
surgery, 27, 227
surgery, child, 228
surgical complications, 242
surgical techniques, 238
temporal bone, high resolution CT,

- 255
- cholinergic receptor
 - nose secretion, 210
- chordectomy
 - glottis cancer, 145
- 'Chorimac 12'
 - cochlea prosthesis, 57
- chromium-cobalt-nickel
 - implantable prosthesis, 637
- chronic infection
 - immunopathology, 213
 - selective IgA deficiency, 216
- chronic otitis media
 - cholesteatoma, 153, 236
 - deafness prevention, 295
 - + effusion *see secretory otitis*
 - epidemiology, 236
 - Meniere disease, 119
 - Meniere syndrome, 308
 - middle ear implant, 39
 - temporal bone, high resolution CT, 255
 - tympanoplasty, 40
- chronic otitis media with effusion
 - see secretory otitis*
- chronic sinusitis
 - alpha 1-antitrypsin, 687
 - arachidonic acid metabolite, 687
 - child, 693
 - diagnosis, 691, 693
 - endoscopic ethmoidectomy, 549
 - alpha 2-macroglobulin, 687
 - pathobiochemistry, 685
 - radiodiagnosis, 689
 - therapy, 691, 693
- ciliary cell
 - semicircular canal, Meniere disease, 310
- circulating immune complex
 - food allergy, 533
- cisplatin
 - head and neck cancer, 516
 - maxillary sinus cancer neo-adjuvant, 603
- classification
 - facial nerve paralysis, 158
- cleft lip
 - augmentation rhinoplasty, 654
- cleft palate
 - secretory otitis, 275
- CO₂ laser
 - benign tumor, 661
 - complications, 675
 - ear surgery, 669, 670
 - phonosurgery, 324, 661
 - recurrent respiratory papillomatosis, 665
 - voice, 668
- cochlea damage
 - sensorineural hearing loss, 428
 - tinnitus, 441
- cochlea prosthesis, 53, 55
 - child, 60
 - 'Chorimac 12', 57
 - extra- vs intracochlear, 53, 56
 - multichannel devices, 57, 61
 - patient rehabilitation, 64
 - reimplantation, 68
 - surgery, 53
- cochlea protection
 - gentamicin intratympanical, 139
- cochlear endolymphatic hydrops, 322
 - therapy, 326
- cold
 - peripheral facial palsy, 83
- collagen
 - implantable prosthesis, 639
- Collet-Sicard syndrome, 491
- combined modality therapy
 - see multimodality therapy*
- complement components
 - middle ear effusion, 277
- computed tomography
 - airway stenosis, 557
 - head and neck cancer, 506
 - vs magnetic resonance imaging, 264
 - nose disease, 205
 - temporal bone, 21
 - temporal bone, high resolution, 255
 - vertigo analysis, 49
- congenital deafness, 293
 - acquired, 293
 - genetical, 294
- congenital malformation
 - larynx, 499
 - Meniere disease, 308
 - temporal bone, high resolution CT, 258
- congenital rubella, 293, 301
 - ABR, 302
- congenital syphilis
 - Meniere syndrome, 308
- contingent negative variation method
 - tinnitus diagnosis, 459
- conus elasticus
 - glottis tumor, 383
- cordectomy
 - glottis cancer, 385
- corticosteroid agent
 - Bells palsy vs surgery, 92
 - Meniere disease, 136
 - respiratory allergy, 546
 - sudden deafness, 711
- corynebacterium parvum
 - immunotherapy, 599
- costs
 - laser therapy, 670
 - RAST, 535

- craniofacial surgery
 nose cancer, 507
 supraorbital rim approach, 508
 cricoid splitting
 laryngo-tracheal stenosis, 569
 croup
 radiodiagnosis, 582
 CT scan
 see computed tomography
 curriculum
 developing country, 9
 specialist certification, 15
 training period, 5
 cytology
 head and neck cancer, 505
 cytomegalovirus
 peripheral facial palsy, 83
 cytostatic therapy
 adjuvant *see adjuvant chemotherapy*
 head and neck cancer, 515
 nasopharynx cancer, 521
 pre-operative *see neo-adjuvant chemotherapy*
 sensorineural hearing loss, 428

 deafferentation
 tinnitus, 441
 deafness
 see also sudden deafness
 congenital *see congenital deafness*
 tropical Africa, 297
 deafness prevention
 see hearing conservation
 dehydration
 Meniere disease, 324
 delineation
 ORL, 4
 Denonvillier method
 rhinoplasty, 619
 dermatophagoides farinae
 HLA phenotype, immunoglobulin E, 543
 developing country
 curriculum, 9
 deafness, tropical Africa, 297
 ENT service program, 298
 otosclerosis surgery, 360
 training, 9
 dextran
 sudden deafness, 712
 diabetes mellitus
 Bells palsy, 87, 95
 diazepam
 fixed unilateral vestibular loss,
 131
 Meniere disease, 132
 dimenhydrinate
 fixed unilateral vestibular loss,
 131
 Meniere disease, 132

 dimethicone
 see silicone
 diphtheroids
 secretory otitis, 275
 diplacusis
 Meniere disease, 43
 diplophonia, 487
 disodium cromoglicate
 allergic rhinitis, 217, 223
 respiratory allergy, 546
 diuretic agent
 Meniere disease, 131, 327
 sensorineural hearing loss, 428
 dizziness
 therapy, 49
 vestibular laboratory, 47
 Down syndrome
 secretory otitis, 275
 drop attack
 Meniere disease, 43
 droperidol
 Meniere disease, 132, 327
 drug toxicity
 acquired congenital deafness, 293
 deafness, 73
 drug surgery, 296
 dysphonia
 clinical examination, 447
 diagnostic advances, 337
 phonosurgery, 341
 psychogenic *see psychogenic dys-*
 phonia
 recurrent laryngeal nerve paralysis,
 491
 subtle larynx dysfunction, 485
 vocal fold sulcus, 501

 ear fullness
 sudden deafness, 707
 education
 otolaryngologist, 107
 patient, *see patient education*
 elastase
 chronic sinusitis, 687
 middle ear effusion, 273
 electrical stimulation
 tinnitus, 445
 electrocochleography, 170
 ABR test combination, 173
 acoustic tumor, 170
 Meniere disease, 170, 324
 sensory hearing loss, 170
 sudden deafness, 702
 electrolytes
 nose secretion, 210
 electromyography
 laryngeal nerve paralysis, 479
 electronmicroscopy
 vestibular labyrinth, 135

- electronystagmography
 - acoustic neurinoma, 177
- endolymphatic duct
 - ultrastructure, 310
- endolymphatic hydrops
 - see also Meniere disease*
 - allergenic, stria vascularis permeability, 318
 - cochlear *see cochlear endolymphatic hydrops*
 - delayed *see Meniere syndrome*
 - diuretic agent, 131, 327
 - experimental, 309
 - fixed unilateral vestibular loss, 128
 - longitudinal flow disturbance, 45
 - pathogenesis, 307, 311
 - perilymph-endolymph barrier, 136, 309
 - surgery, 330
 - therapy, 131
- endolymphatic mastoid shunt
 - see transmastoid endolymphatic shunt*
- endolymphatic sac
 - ultrastructure, 311
- endoscopic ethmoidectomy
 - chronic sinusitis, 549
- endoscopy
 - see also laryngo- and bronchoscopy*
 - chronic sinusitis, 691, 694
