Preface xvii  
Preface to the First Edition xix

## I GENERAL CONSIDERATIONS

- 1 Perspectives on Neonatology—1980 •  
HARRY H. GORDON 3
  - Historical Background 3
  - The Development of Perinatal Medicine 6
  - Continuing Problems and Concerns 7
  - Ethical Dilemmas 8
  - Relation to Normal Delivery 10
- 2 The Morality of Drastic Intervention •  
GORDON B. AVERY 13
  - Statement of the Problem 13
  - The Law and the Courts 13
  - Primum non Nocere*—First, Do No Harm 14
  - Interested Parties to the Decision 14
  - Who Decides 14
  - The Handling of Feelings 15
  - Summary 16
- 3 The Organization of Perinatal Care with Particular Reference to the Newborn •  
PAUL R. SWYER 17
  - Introduction 17
  - The Regional Organization for Reproductive Medical Care 35
  - Conclusion 44
- 4 The Role of the Nurse in Neonatology 48
  - Theoretical and Administrative Considerations 48 • MITZI L. DUXBURY
  - Nursing Administration of the Unit 49
  - Burn-out and Turn-over 50
  - Moral or Ethical Concerns for Nurses in Neonatal Intensive Care Units 52 • RUTH D. WEISE
  - Neonatal Transport 53 • JUDITH A. CANNON
  - History 53

Methods of Transport 54  
Personnel 54  
Equipment 55  
Procedure for Transport 56  
Babies with Special Needs 58  
Regular Evaluations 59  
Patient Care in the ICN 59 •  
MARY BETH L. HOUSE AND  
MICHELE M. DOMBKIEWICZ  
Staffing Requirements 59  
Admission 60  
General Care 61  
Feedings 63  
The Premature 65  
The Nurse's Role in Growth and  
Development 67

Special Care 68  
Discharge Planning 77  
Family-centered Nursing Care 78 •  
JUDYTH TODD BROWN AND  
DIANE V. BERNSTEIN  
Historical Perspectives 78  
Bonding and Attachment 78  
Transfer 79  
Admission to the Neonatal Intensive Care  
Unit 79  
Care of the Patients of the Critically Ill  
Child 81  
Care of Parents of the Infant with a  
Defect 82  
Care of Parents of the Chronically Ill  
Child 83

## II THE FETAL PATIENT

5 Fetomaternal Interaction • JOSEPH  
DANCIS 91  
The Fetal Membranes 91  
Comparative Placentology 92  
Immunologic Interactions 92  
Fundamentals of Placental Transfer 95  
Antepartum Nutrition 98  
Antepartum Excretion of Bilirubin 99  
The Placenta as an Endocrine Organ 100  
The Amniotic Fluid 102  
6 Management of the High-risk  
Pregnancy • EDWARD J. QUILLIGAN,  
DAVID J. NOCHIMSON, AND ROGER K.  
FREEMAN 105  
Fetal Maturity 106  
Clinical Assessment of Placental  
Function 110  
Management of Specific High-risk  
Situations 113  
Summary 118  
7 Management of Labor and Delivery •  
EDWARD H. HON AND KEE S. KOH 120  
Effects of Labor on the Fetus 120  
Fetal Heart Rate 121  
Fetal Scalp Blood Sampling 123

Management of Labor and Delivery 124  
Fetal Distress 126  
Comments 128

8 Obstetric Anesthesia • JOHN STEPHEN  
NAULTY 132  
The Pain of Parturition 132  
Labor Pain 133  
Administration of Obstetric  
Anesthesia 133  
Current Obstetric Anesthetic Practice 134  
Obstetric Anesthesia Without Drugs 134  
Obstetric Anesthesia Using Drugs 135  
Fetal and Neonatal Effects of Obstetric  
Anesthesia 139  
Conclusion 142

9 The Onset of Respiration •  
NICHOLAS M. NELSON 145  
The First Breaths 146  
Stimuli for Breathing 148  
Pulmonary Adaptation 149  
Circulatory Adaptation 150  
Pulmonary Mechanics 153  
Pulmonary Ventilation 160  
Summary 165

## III TRANSITION AND STABILIZATION

10 Thermoregulation in the Newborn •  
JON W. SCOPES 171  
Physiology of Temperature Control in the  
Infant 171

Physics of Heat Exchange in the  
Baby 173  
Optimal Thermal Environment 174

- 11 Delivery Room Management of the Newborn • RODERIC H. PHIBBS 182
- The Fetal Circulation 182
  - Neonatal Circulation 182
  - Pathophysiology of Intrapartum Asphyxia and Resuscitation 183

- High-risk Pregnancies 188
- Initial Evaluation 189
- Resuscitation of the Asphyxiated Infant 189
- Meconium Aspiration 199
- Counseling of Parents 199

#### IV THE NEWBORN INFANT

- 12 Assessment of Weight and Gestational Age • LULA O. LUBCHENCO 205
- Gestational Age 205
  - Determination of Gestational Age 208
  - Neonatal Morbidity 214
  - Long-term Follow-up 222

- The Infant of the Diabetic Mother 289
- Metabolic Abnormalities in the IDM 290
- Treatment of the IDM 295

- 13 Needs of the Term Infant • ERNEST N. KRAYBILL 225
- Delivery Room Care 225
  - Prevention of Infection 226
  - Feeding Routines 227
  - Screening Procedures 227
  - The Infant-Family Relationship 228
  - Duration of the Hospital Stay 229

- 17 Psychological Needs of the Mother in Early Mother-Infant Interactions • ARNOLD J. SAMEROFF 303

- Mother-Infant Attachment 303
- The Mother 306
- The Child 308
- The Maternity Setting 311
- Fostering Motherhood 317

- 14 The Special Problems of the Premature Infant • ROBERT H. USHER 230

- 18 Behavioral Competence of the Newborn Infant • T. BERRY BRAZELTON 322

- Effects of *In Utero* Environment 323
- Neonatal Behavioral Assessments 329
- Sensory Capacities 336
- Organization of Motor Behavior 342
- Learning in the Neonatal Period 343

- Introduction 230
- Borderline Premature Infants 231
- Moderately Premature Infants 231
- Extremely Premature Infants 241
- Premature Infant Sequelae and Mortality Rates 257
- Overview 259

- 19 Follow-up Studies of the High-Risk Newborn • PAMELA M. FITZHARDINGE AND KAREN E. PAPE 350

- Organization of a Follow-up Program 350
- Outcome for Specific Categories of Neonates 354
- Specific Neonatal Complications in Full-term and Premature Infants 362

- 15 The Small-for-Date Infant • GEORGE CASSADY 262

- 20 Acute Respiratory Disorders in the Newborn • MILDRED T. STAHLMAN 371

- Development of the Lung 371
- Circulatory Adaption and its Effects on Neonatal Respiratory Distress 374
- Hyaline Membrane Disease (HMD) 376
- Type II Respiratory Distress Syndrome (RDS) 388
- Intrauterine Aspiration Pneumonia (Massive Aspiration Syndrome, Meconium Aspiration Pneumonia) 390
- Other Aspiration Syndromes 391
- Infections of the Newborn Lung 392

- History and Introduction 262
- Significance of the Problem 262
- Definition 263
- Diagnosis 263
- Causes 265
- Compositional Changes in SGA 268
- Functional Changes in SGA 272
- Management 274
- Outcome 275

- 16 The Infant of the Diabetic Mother • ANNE B. FLETCHER 287

- The Diabetic Mother and Her Pregnancy 287

**x** Contents

- Pulmonary Hemorrhage in the Newborn 395  
Pneumothorax, Pneumomediastinum, and Interstitial Emphysema 395
- 21** Chronic Lung Disorders • JOAN E. HODGMAN 398
- Introduction 398  
Bronchopulmonary Dysplasia (BPD) 398  
Chronic Effect of Pulmonary Disease 405  
Chronic Pulmonary Disease in the Immature Lung 406  
Conclusions 409
- 22** Special Techniques in Managing Respiratory Problems • W. ALAN HODSON AND WILLIAM E. TRUOG, III 412
- Introduction 412  
Principles of Management of Respiratory Failure 412  
Establishment and Maintenance of Airway 412  
Oxygen Therapy 417  
Venilatory Assistance 424  
Other Respiratory Problems 431  
Intensive Care Setting 434
- 23** Neonatal Heart Disease • DONALD C. FYLER AND PETER LANG 438
- Introduction 438  
Physiology 442  
Diagnosis 445  
Management 449  
Ventricular Septal Defect 451  
Patent Ductus Arteriosus 453  
Endocardial Cushion Defect 455  
Total Anomalous Pulmonary Venous Drainage 456  
Coarctation of the Aorta 458  
Hypoplastic Left Heart Syndrome 460  
Aortic Stenosis 461  
D-Transposition of the Great Arteries 461  
Tetralogy of Fallot 464  
Pulmonary Atresia with an Intact Ventricular Septum 465  
Heterotaxy Syndrome 467  
Dextrocardia 468  
Primary Myocardial Disease 469  
Rhythm Disturbances 470
- 24** Neonatal Jaundice • M. JEFFREY MAISELS 473
- Introduction 473  
Neonatal Bilirubin Metabolism 474  
Fetal Bilirubin Metabolism 478  
Physiologic Jaundice of the Newborn 478  
Approach to the Jaundiced Infant 482  
Normal Serum Bilirubin Levels 485  
Causes of Indirect Hyperbilirubinemia 493  
Bilirubin Toxicity 497  
Management of Hyperbilirubinemia 511  
Prevention of Hyperbilirubinemia 527  
Cholestatic Jaundice 528  
Neonatal Hepatitis and Extrahepatic Biliary Atresia (EHBA) 529
- 25** Hematologic Problems • FRANK A. OSKI 545
- Anemia 545  
Polycythemia in the Newborn 564  
Fetal Hemoglobin, the Neonatal Red Cell, and 2,3-Diphosphoglycerate 565  
Coagulation Disturbances 567  
Leukocyte Disturbances 577
- 26** Carbohydrate Homeostasis in the Fetus and Newborn • RICHARD M. COWETT AND LEO STERN 563
- Glucose Homeostasis in the Fetus 583  
Glucose Homeostasis at Delivery 584  
Glucose Homeostasis in the Newborn 584  
Hypoglycemia in the Newborn 586  
Imprecise/Diminished Hepatic Glucose Production 586  
Hyperinsulinism 589  
Evaluation of Neonatal Hypoglycemia 592  
Hyperglycemia in the Newborn 592  
Treatment 593
- 27** Calcium and Magnesium Homeostasis in the Newborn • REGINALD C. TSANG AND JEAN J. STEICHEN 600
- Calcium 600  
Calcitropic Hormones 600  
Neonatal Hypocalcemia 603  
Magnesium 607  
Magnesium Deficiency and Hypomagnesemia 607  
Hypermagnesemia 608
- 28** Inherited Metabolic Disorders • Y. EDWARD HSIA AND BARRY WOLF 612
- Introduction 612  
Family History 613  
Diet History 614  
Clinical Features of Metabolic Errors 615  
Clinical Abnormalities 622  
Screening 630  
Diagnosis 634

- Treatment 637  
Prenatal Diagnosis 640
- 29 Fluid and Electrolyte Management • WILLIAM OH 643**  
Body Composition in the Fetal and Neonatal Period 643  
Principles of Fluid and Electrolyte Therapy 647  
Specific Clinical Conditions with Fluid and Electrolyte Problems 651  
Technical Aspects of Parenteral Fluid Therapy 657
- 30 Renal Diseases • PEDRO A. JOSE, LETICIA U. TINA, ZOE L. PAPAPOPOULOU, AND PHILIP L. CALCAGNO 661**  
Human Renal Anatomical Development 661  
Human Renal Physiology 662  
Clinical Evaluation of Renal Function 669  
Acquired Renal Abnormalities 672  
Acute Renal Failure 674  
Edema of the Newborn 678  
Diuretics in the Developing Kidney 681  
Kidney Infections 681  
Functional Abnormalities of the Kidney 683  
Failure to Thrive with Renal Disease 689
- 31 Immunology of the Fetus and Newborn • JOSEPH A. BELLANTI AND ATTILIO L. BONER 701**  
Introduction 701  
General Development of the Immune System: Role of the Environment 701  
Development of the Different Components of the Immune System 703  
Maternal-Fetal-Neonatal Relationships 709  
Immunologic Consequences of Intrauterine Infections 713  
Immunologic Evaluation of the Newborn 715  
Conclusion 720
- 32 Bacterial and Viral Infections of the Newborn • GEORGE H. MCCrackEN, JR. 723**  
Pharmacologic Basis of Antimicrobial Therapy 723  
Nosocomial Bacterial Infections 724  
Nosocomial Viral Infections 727  
Sepsis Neonatorum 728  
Meningitis 733  
Osteomyelitis and Septic Arthritis 737  
Cutaneous Infections 738
- Urinary Tract Infection 739  
Neonatal Syphilis 740  
Neonatal Ophthalmia 740  
Diarrheal Disease 742  
Lower Respiratory Tract Infection 743
- 33 Chronic Congenital and Perinatal Infections • DAVID W. REYNOLDS, SERGIO STAGNO, AND CHARLES A. ALFORD, JR. 748**  
Introduction 748  
Rubella 749  
Toxoplasmosis 758  
Cytomegalovirus 764  
Herpes Simplex Virus 771  
Syphilis 778
- 34 Surgery of the Neonate • JUDSON G. RANDOLPH, R. PETER ALTMAN, AND KATHRYN D. ANDERSON 790**  
General Considerations 790  
Lesions of the Head and Neck 791  
Distress from Respiratory Obstruction 795  
The Esophagus 798  
Abdominal Surgery: General 807  
Intestinal Obstruction, Abnormalities of Rotation, Malrotation, and Midgut Volvulus 810  
Abnormalities of the Umbilicus and Abdominal Wall 823
- 35 Congenital Abnormalities of the Kidney and the Collecting System • A. BARRY BELMAN 832**  
Embryology 832  
Renal Abnormalities 832  
The Urinary Drainage System 837  
Ureteral Obstruction 840  
The Penis 845  
The Urethra 850  
Urinary Tract Infection 855
- 36 Neoplasia in the Neonate and the Young Infant • JEFFREY G. ROSENSTOCK AND AUDREY E. EVANS 858**  
Neoplasms 860
- 37 Congenital Malformations • MURRAY FEINGOLD 870**  
Types of Inheritance 870  
Chromosomal Abnormalities 872  
Evaluating the Malformed Infant 873  
Common Malformation Syndromes 878  
Physical Norms for Syndromes 885

**38 Orthopedics in the Newborn •**

PAUL P. GRIFFIN 890

- Physical Examination 890
- Musculoskeletal Anomalies 891
- Generalized Musculoskeletal Anomalies 903
- Birth Injuries 903
- Bone and Joint Infections 907

**39 Neurologic Disorders • JOSEPH J. VOLPE AND**

RICHARD KOENIGSBERGER 910

- Neurologic Evaluation of the Neonate 910
  - Normal Neurologic Findings 910
  - Abnormal Neurologic Findings 913
- Transillumination 918
  - Laboratory Studies 919
  - Apneic Spells and Periodic Breathing 920
  - Seizures 923
  - Hypoxic-Ischemic Perinatal Brain Injury 930
  - Intracranial Hemorrhage 938
  - Developmental Disorders 944

**40 Disorders of Neurosurgical Importance**

• THOMAS H. MILHORAT 964

- Excessive Cranial Enlargement 964
- Abnormal Cranial Configuration 974
- Meningocele and Related Disorders 979

**41 Neuromuscular Diseases • GLORIA D.**

ENG 987

- Traumatic Peripheral Nerve Palsies 987
- Congenital Torticollis 992
- Tone Problems 994
- Laboratory Aids 999

**42 Nutrition • GORDON B. AVERY AND**

ANNE B. FLETCHER 1002

- The Physiology of Digestion and Absorption 1002
- Specific Nutritional Constituents (Significance, Requirements, Deficiency States) 1011
- Feeding the Term and Preterm Infant 1019
- Specialized Feeding Techniques in the Newborn and Premature Infant 1030
- Disorders of Nutrition 1040

**43 Dermatologic Conditions •**

ANDREW M. MARGILETH 1061

- Physiologic and Genetic Variations 1061
- Trauma 1066

Diaper Dermatitis 1067

Miscellaneous Skin Lesions 1069

Nail, Sweat, and Hair Defects 1070

Nevi and Tumors 1072

Developmental Vascular Abnormalities 1076

Infections of the Skin 1085

Blistering Diseases: Noninfectious 1091

Scaling Disorders 1097

Eczema in the Newborn 1099

Idiopathic Dermatoses 1100

**44 Endocrine Disorders in the Newborn •**

ALFRED M. BONGIOVANNI AND

THOMAS MOSHANG, JR. 1104

Sexual Ambiguity and Gonadal Disorders 1104

Disorders of the Adrenal Gland 1112

Disorders of the Thyroid 1119

**45 Eye Disorders in Neonates •**

DAVID S. FRIENDLY 1128

History and Examination

Techniques 1128

Ophthalmia Neonatorum

(Conjunctivitis) 1131

Cataracts 1132

Infantile Glaucoma 1133

Retrolental Fibroplasia 1135

Retinoblastoma 1138

Aniridia 1138

Toxoplasmosis 1139

Cytomegalovirus Disease 1140

Rubella Syndrome 1140

Retinal Dangers Associated with

Phototherapy for

Hyperbilirubinemia 1141

**46 Drugs and the Perinatal Patient •**

GEORGE P. GIACOIA AND SUMNER J. YAFFE 1144

Introduction 1144

General Considerations 1144

Pharmacology of Pregnancy 1145

Fetal Pharmacology 1147

Neonatal Pharmacology 1150

Specific Drugs: Clinical

Considerations 1154

Recent Advances in Neonatal

Therapeutics 1165

Conclusion 1167

Appendices 1173

Index 1227
