

# CONTENTS

## SECTION I

### DEVELOPMENT OF THE GENITAL TRACTS AND FUNCTIONAL RELATIONSHIPS OF THE GONADS

PLATE NUMBER	PAGE NUMBER
1. Homologues of Internal Genitalia .....	2
2. Homologues of External Genitalia .....	3
3. Functional Gonadal Relationships .....	4-6

## SECTION II

### NORMAL ANATOMY OF THE MALE GENITAL TRACT

1. Pelvic Structures .....	9
2. Ligamentous and Fascial Support .....	10
3. Perineal Fasciae .....	11
4. Penile Fasciae and Structures .....	12
5. Urogenital Diaphragm .....	13
6. Blood Supply of Pelvis .....	14
7. Blood Supply of Perineum .....	15
8. Blood Supply of Testis .....	16
9. Lymphatic Drainage of Pelvis and Genitalia .....	17
10. Innervation of Genitalia I .....	18
11. Innervation of Genitalia II and of Perineum .....	19
12. Urethra and Penis .....	20
13. Prostate and Seminal Vesicles .....	21
14. Development of Prostate .....	22
15. Scrotal Wall .....	23
16. Testis, Epididymis and Vas Deferens .....	24
17. Testicular Development, Spermatogenesis .....	25
18. Descent of Testis .....	26

## SECTION III

### DISEASES OF THE PENIS AND URETHRA

1. Hypospadias, Epispadias .....	29
2. Congenital Valve Formation and Cyst .....	30
3. Urethral Anomalies, Verumontanum Disorders .....	31
4. Phimosis, Paraphimosis, Strangulation .....	32
5. Peyronie's Disease, Priapism, Thrombosis .....	33
6. Trauma to Penis and Urethra .....	34
7. Urinary Extravasation .....	35
8. Balanitis .....	36
9. Urethritis .....	37
10. Syphilis .....	38
11. Chancroid, Lymphogranuloma Venereum .....	39
12. Granuloma Inguinale .....	40
13. Strictures .....	41
14. Warts, Precancerous Lesions, Early Cancer .....	42
15. Advanced Carcinoma of Penis .....	43
16. Papilloma, Cancer of Urethra .....	44

## SECTION IV

### DISEASES OF THE PROSTATE AND SEMINAL TRACT

1. Trauma .....	47
2. Infarct, Retention Cyst .....	48
3. Prostatitis .....	49
4. Tuberculosis, Calculi .....	50
5. Benign Prostatic Hypertrophy I - Histology .....	51
6. Benign Prostatic Hypertrophy II - Sites .....	52
7. Benign Prostatic Hypertrophy III - Complications .....	53
8. Sarcoma of Prostate .....	54
9. Carcinoma of Prostate I - Types and Extension .....	55
10. Carcinoma of Prostate II - Metastases .....	56
11. Carcinoma of Prostate III - Palliation .....	57
12. Surgical Approaches I - Suprapubic .....	58
13. Surgical Approaches II - Retropubic .....	59
14. Surgical Approaches III - Perineal .....	60
15. Surgical Approaches IV - Transurethral .....	61
16. Anomalies of Seminal Tract, Cord Tumors .....	62

## SECTION V

### DISEASES OF THE SCROTUM AND TESTIS

1. Dermatoses I - Chemical and Infectious Origin .....	64
2. Dermatoses II - Arthropodic Origin .....	65

## SECTION V (continued)

### DISEASES OF THE SCROTUM AND TESTIS (continued)

PLATE NUMBER	PAGE NUMBER
3. Avulsion, Edema, Hematoma .....	66
4. Hydrocele, Spermatocele .....	67
5. Varicocele, Hematocele, Torsion .....	68
6. Infection, Gangrene .....	69
7. Syphilis .....	70
8. Elephantiasis .....	71
9. Cysts and Cancer of Scrotum .....	72
10. Malposition of Testes .....	73
11. Testicular Failure I - Primary .....	74
12. Testicular Failure II - Secondary .....	75
13. Testicular Failure III - Secondary, Variants .....	76
14. Testicular Failure IV - Klinefelter .....	77
15. Testicular Failure V - Delayed Puberty .....	78
16. Testicular Failure VI - Gametogenic .....	79
17. Sexual Precocity I - Cerebral Type .....	80
18. Sexual Precocity II - Endocrine Type .....	81
19. Infection and Abscess of Testis and Epididymis .....	82
20. Syphilis and Tuberculosis of Testis .....	83
21. Testicular Tumors I - Less Malignant .....	84
22. Testicular Tumors II - Highly Malignant .....	85
23. Diagnostic Procedures - Biopsy, Semen Analysis .....	86

## SECTION VI

### NORMAL ANATOMY OF THE FEMALE GENITAL TRACT AND ITS FUNCTIONAL RELATIONSHIPS

1. Pelvic Viscera .....	89
2. External Genitalia .....	90
3. Pudendal, Pubic and Inguinal Regions .....	91
4. Perineum .....	92
5. Pelvic Diaphragm I - From Below .....	93
6. Pelvic Diaphragm II - From Above .....	94
7. Pelvic Viscera and Support - From Above .....	95
8. Support of Pelvic Viscera .....	96
9. Blood Supply of Pelvis I .....	97
10. Blood Supply of Pelvis II .....	98
11. Blood Supply of Perineum and Uterus .....	99
12. Lymphatic Drainage I - Pelvis .....	100
13. Lymphatic Drainage II - Internal Genitalia .....	101
14. Lymphatic Drainage III - External Genitalia .....	102
15. Innervation of Internal Genitalia .....	103
16. Innervation of External Genitalia, Perineum .....	104
17. Neuropathways in Parturition .....	105
18. Female Urethra .....	106
19. Vulva and Vagina - Histology .....	107
20. Vagina - Cytology .....	108-109
21. Uterus and Adnexa .....	110
22. Uterine Development and Musculature .....	111
23. Endometrial Blood Supply .....	112
24. Fallopian Tubes .....	113
25. Ovarian Structures and Development .....	114
26. Endocrine Relations During Cycle .....	115-116
27. Ovarian Cycle .....	116-117
28. Endometrial Cycle .....	118-119
29. Hormonal Influence During Life .....	120-121
30. Diagnostic Procedures I - Smear, Biopsies .....	122
31. Diagnostic Procedures II - Culdoscopy .....	123

## SECTION VII

### DISEASES OF THE VULVA

1. Dermatoses .....	127
2. Atrophic Conditions .....	128
3. Circulatory Disturbances .....	129
4. Vulvitis I - Diabetes, Trichomoniasis, Moniliasis .....	130
5. Vulvitis II - Gonorrhea .....	131
6. Syphilis .....	132
7. Chancroid and Other Infections .....	133
8. Cysts .....	134
9. Benign Tumors .....	135
10. Malignant Tumors .....	136

SECTION VIII  
DISEASES OF THE VAGINA

PLATE NUMBER	PAGE NUMBER
1. Congenital Anomalies .....	139
2. Imperforate Hymen, Hematocolpos, Fibrous Hymen...	140
3. Atrophic Conditions .....	141
4. Trauma .....	142
5. Obstetric Lacerations I—Fibromuscular Support .....	143
6. Obstetric Lacerations II—Vagina, Perineum, Vulva...	144
7. Fistulae .....	145
8. Cystocele, Urethrocele .....	146
9. Rectocele, Enterocoele .....	147
10. Vaginitis I—Trichomonas, Monilia, Nonspecific .....	148
11. Vaginitis II—Venereal Infections, Tuberculosis .....	149
12. Vaginitis III—Chemical, Traumatic .....	150
13. Cysts and Benign Tumors .....	151
14. Malignant Tumors I—Primary .....	152
15. Malignant Tumors II—Metastases and Extension .....	153
16. Endometriosis I—Vulva, Vagina, Cervix .....	154

SECTION IX  
DISEASES OF THE UTERUS

1. Congenital Anomalies .....	157
2. Displacements .....	158
3. Prolapse .....	159
4. Perforation .....	160
5. Lacerations, Strictures, Polyps .....	161
6. Relationships in Endometrial Hyperplasia .....	162
7. Endometrial Hyperplasia, Polyps, Tuberculosis .....	163
8. Cervicitis I—Erosions, Parasitic Infections .....	164
9. Cervicitis II—Gonorrhoea, Pyogenic Infections .....	165
10. Myoma (Fibroid) I—Locations .....	166
11. Myoma (Fibroid) II—Secondary Changes .....	167
12. Myoma (Fibroid) III—Degeneration, Obstruction .....	168
13. Sarcoma .....	169
14. Cancer of Cervix I—Cytology .....	170
15. Cancer of Cervix II—Various Stages and Types .....	171
16. Cancer of Cervix III—Extension and Metastases .....	172
17. Cancer of Corpus I—Various Stages and Types .....	173
18. Cancer of Corpus II—Histology and Extension .....	174
19. Causes of Uterine Bleeding .....	175

SECTION X  
DISEASES OF THE FALLOPIAN TUBES

1. Congenital Anomalies I—Absence, Rudiments .....	179
2. Congenital Anomalies II—Atresia, Defects .....	180
3. Bacterial Routes, Parametritis, Acute Salpingitis I .....	181
4. Acute Salpingitis II, Pyosalpinx .....	182
5. Hydrosalpinx .....	183
6. Pelvic Peritonitis, Abscess .....	184
7. Chronic Salpingitis, Adhesions .....	185
8. Obstruction Following Chronic Salpingitis .....	186
9. Tubo-ovarian Abscess .....	187
10. Tuberculosis .....	188
11. Salpingitis Isthmica Nodosa, Carcinoma .....	189
12. Para-ovarian or Epoöphoron Cyst .....	190

SECTION XI  
DISEASES OF THE OVARY

1. Developmental Anomalies .....	193
2. Physiologic Variations, Nonneoplastic Cysts .....	194
3. Endometriosis II—Pelvis .....	195
4. Infections .....	196
5. Serous Cystoma and Cystadenoma .....	197
6. Papillary Serous Cystadenoma .....	198
7. Papilloma, Serous Adeno- and Cystadenofibroma .....	199
8. Pseudomucinous Cystadenoma .....	200
9. Teratomata .....	201
10. Feminizing Neoplasms .....	202
11. Masculinizing Neoplasms .....	203

Index .....

Information on CIBA COLLECTION Volumes .....

SECTION XI (continued)  
DISEASES OF THE OVARY (continued)

PLATE NUMBER	PAGE NUMBER
12. Endocrinopathies I—Luteinization .....	204
13. Endocrinopathies II—Stein-Leventhal Syndrome .....	205
14. Dysgerminoma, Brenner Tumor .....	206
15. Stromatogenous Neoplasms .....	207
16. Primary Cystic Carcinoma .....	208
17. Primary Solid Carcinoma .....	209
18. Secondary Ovarian Carcinoma .....	210
19. Diagnosis of Ovarian Neoplasms .....	211-212
20-21. Conditions Simulating Ovarian Neoplasms .....	212-214

SECTION XII  
PREGNANCY AND ITS DISEASES

1. Implantation and Early Development of Ovum .....	217
2. Development of Placenta and Fetal Membranes .....	218
3. Circulation in Placenta .....	219
4. Placenta I—Form and Structure .....	220
5. Placenta II—Numbers, Cord, Membranes .....	221
6. Placenta Previa .....	222
7. Abruptio Placentae .....	223
8. Couvelaire Uterus, Maternal Pulmonary Embolism .....	224
9. Ectopic Pregnancy I—Tubal Pregnancy .....	225
10. Ectopic Pregnancy II—Rupture, Abortion .....	226
11. Ectopic Pregnancy III—Other Than Tubal .....	227
12. Abortion .....	228
13. Syphilis .....	229
14. Puerperal Infection .....	230
15. Urinary Complications .....	231
16. Intra-uterine Neoplasms .....	232
17. Erythroblastosis Fetalis .....	233
18. Rupture of Uterus .....	234
19. Acute Toxemia I—Symptomatology .....	235
20. Acute Toxemia II—Eyeground .....	236
21. Acute Toxemia III—Visceral Lesions .....	237
22. Acute Toxemia IV—Placental Infarcts .....	238
23. Placental Lesions Other Than Infarcts .....	239
24. Causes of Decreased Maternal Circulation .....	240
25. Hormonal Fluctuations in Pregnancy .....	241

SECTION XIII  
ANATOMY AND PATHOLOGY OF THE  
MAMMARY GLAND

1. Position and Structure .....	245
2. Blood Supply .....	246
3. Lymphatic Drainage .....	247
4. Developmental Stages .....	248
5. Functional Changes and Lactation .....	249
6. Polythelia, Polymastia, Hypertrophy .....	250
7. Gynecomastia .....	251
8. Painful Engorgement, Puerperal Mastitis .....	252
9. Tuberculosis, Syphilis, Plasma Cell Mastitis .....	253
10. Chronic Cystic Mastitis I—Mastodynia .....	254
11. Chronic Cystic Mastitis II—Adenosis .....	255
12. Chronic Cystic Mastitis III—Cystic Disease .....	256
13. Benign Fibro-adenoma, Intracystic Papilloma .....	257
14. Giant Myxoma, Sarcoma .....	258
15. Infiltrating Carcinoma (Scirrhus) .....	259
16. Fulminant Carcinoma .....	260
17. Circumscribed Forms of Adenocarcinoma .....	261
18. Paget's Disease of the Nipple .....	262
19. Malignancies of Male Breast .....	263

SECTION XIV  
INTERSEXES

1. Male Pseudohermaphroditism I .....	267
2. Male Pseudohermaphroditism II .....	268
3. True Hermaphroditism .....	269
4. Female Pseudohermaphroditism .....	270
